ABOUT ME

Highly motivated and results-oriented Full-Stack Web Developer with a strong foundation in React, Next.js, and modern JavaScript. Proven ability to design, develop, and deploy high-quality web applications across the full stack. Eager to contribute to innovative projects and collaborate effectively within dynamic teams to deliver exceptional user experiences.

EXPERIENCE

Full-Stack Developer, Benefit Finance

benefit-finance.remiforge.dev
github.com/remi-k-work/benefit-finance

Mar 2026

Developed a full-stack platform for Benefit Finance using Next.js, featuring authentication, user management, and a lead referral system. Built an AI-powered support agent with a RAG knowledge base and a custom CMS/admin panel to manage users, leads, and content. Project financed by the EU "STOP Exclusion!" program supporting employment for people with disabilities.

Full-Stack Developer, ARTCOM

artcom.remiforge.dev/admin
github.com/remi-k-work/artcom

Jan 2025

Developed a unique CMS for a training & consulting firm. Leveraging Payload CMS, I created a user-friendly system with drag-and-drop functionality. This project streamlined content workflows, reduced management time, and empowered team members to independently update website content, significantly improving overall content management efficiency.

React Developer, ARTCOM

artcom.remiforge.dev
github.com/remi-k-work/artcom

Nov 2024

Revamped ARTCOM's website using Next.js and React, creating a dynamic user experience with captivating animations. Demonstrated strong front-end development skills.

SKILLS

HTML •
CSS •
JavaScript •
TypeScript •
React •
NextJS •
Inkscape •
GIMP •
Figma •
Fluent English •

EDUCATION

RZESZÓW UNIVERSITY OF TECHNOLOGY
Rzeszów, Poland
Computer Science •
1997 — 1999

AMERICAN LANGUAGE COMMUNICATION CENTER
New York, US
ESL and TOEFL •
2000 — 2002

PRATT INSTITUTE
New York, US
Interactive Media •
2002 — 2004

Internship, ARTCOM

artcom.edu.pl

Oct 2024

Contributed to a dynamic learning environment as a Web Developer at ARTCOM internship. Leveraged skills in website development, IT maintenance, and digital asset creation (2D & 3D). Seeking a full-time tech opportunity to leverage my skills and passion.

Odd Jobs

Too Long

Overcame a career obstacle by leveraging problem-solving and teamwork skills honed through diverse experiences (bartending, waiting tables, construction). Re-entered the programming field with a renewed perspective and a strong foundation in core programming principles. Eager to contribute to innovative software projects.

.NET Programmer, Syncro Services

www.xr.global

2008, 2009

Centralized content management for Syncro Services (content distribution) using ASP.NET 2.0 & Silverlight. Streamlined content upload & browsing via a cloud-based platform, reducing distribution costs. Facilitated collaboration & rapid iteration for web & mobile.

Web Consultant, Not For Tourists

www.notfortourists.com

2005 — 2007

Implemented a centralized CMS for "The Not For Tourists Guide to New York City." Streamlined content management for editors with real-time updates across web & print. Enhanced user experience with interactive maps, search, and automated InDesign layout.

Full-Stack Developer, DanceShopper

www.danceshopper.com

2002 — 2004

Built a successful e-commerce platform for a dancewear startup using ASP.NET & C#. Collaborated with a client to create a user-friendly CMS & secure payment processing for professional dancers.

PORTFOLIO PROJECTS

Total Recall AI

total-recall-ai.remiforge.dev

github.com/remi-k-work/total-recall-ai

Nov 2025

Engineered a next-generation personal knowledge management system utilizing AI to instantly query, find, and synthesize information across a user's complete history of notes via natural language.

PixaMory

github.com/remi-k-work/memory-game-native/releases/latest/download/PixaMory.apk

github.com/remi-k-work/memory-game-native

May 2025

Developed a memory game with randomly generated images from Pixabay. Features increasing difficulty levels, progress tracking, and a focus on visual memory.

NoLine-Deli Manager

noline-deli.remiforge.dev/manager

github.com/remi-k-work/noline-deli

Jun 2024

Developed NoLine-Deli Manager, a user-friendly CMS for my fictional e-commerce store. This platform showcases skills in e-commerce backend development, CMS creation, and user interface design.

NoLine-Deli

noline-deli.remiforge.dev

github.com/remi-k-work/noline-deli

Mar 2024

Developed NoLine-Deli, a Next.js ecommerce prototype for organic European groceries. Prioritized convenient, queue-free shopping with nationwide delivery in the US. Caters to European expats and those seeking high-quality European products.

Word Wave

word-wave.remiforge.dev

github.com/remi-k-work/word-wave

Feb 2024

Built a social network feed app using Redux, following Mark Erikson's "Redux Essentials" tutorial. This project showcases skills in building interactive user interfaces and managing application state.

Home Budget

home-budget.remiforge.dev

github.com/remi-k-work/home-budget

Dec 2023

Refreshed web development skills with a focus on React, including React Router for building single-page applications. Learning through Coding in Public tutorials.

Wordle Game

wordle-game.remiforge.dev

github.com/remi-k-work/wordle-game

Jan 2024

Developed a Wordle game clone. Features daily puzzles, color-coded feedback, and supports English and Polish languages. This project demonstrates skills in game development, user interface design, and front-end development.

My CV

remiforge.dev

github.com/remi-k-work/my-cv

Oct 2023

Developed a personal resume website using React. Showcases web development skills with a dynamic user experience. Source code available on GitHub.
