ABOUT ME

My passion for web development has never wavered. I am currently learning React and other front-end technologies, and I am seeking internship opportunities to get my hands dirty and contribute to any project that comes my way.

EXPERIENCE

Full-Stack Developer, DanceShopper
www.danceshopper.com

2002 — 2004

Leveraged ASP.NET and C# skills to build a successful e-commerce platform for a dancewear startup. Collaborated with a client to develop a niche online store catering to professional dancers. Designed the website architecture, including a user-friendly CMS, secure payment processing, and user analytics.

Web Consultant, Not For Tourists
www.notfortourists.com

2005 — 2007

Implemented a centralized, database-driven CMS for "The Not For Tourists Guide to New York City." This streamlined content management for editors, allowing for real-time updates across the website and printed guide. Enhanced user experience through features like interactive maps with hotspots, search functionality, and automatic page layout (InDesign).

.NET Programmer, Syncro Services
www.xr.global

2008, 2009

Pioneered cloud-based content management for Syncro Services, a leader in content distribution. Developed a centralized website for content upload & browsing, eliminating traditional methods and reducing distribution costs. Used ASP.NET 2.0 & Silverlight to create a dynamic user experience for web & mobile, facilitating collaboration and rapid iteration based on client feedback.

SKILLS

- HTML
- CSS
- JavaScript
- TypeScript
- React
- NextJS
- Inkscape
- GIMP
- Fluent English

EDUCATION

RZESZÓW UNIVERSITY OF TECHNOLOGY
Rzeszów, Poland

· *Computer Science*

1997 — 1999

AMERICAN LANGUAGE COMMUNICATION CENTER
New York, US

· *ESL and TOEFL*

2000 — 2002

PRATT INSTITUTE
New York, US

· *Interactive Media*

2002 — 2004

Odd Jobs

Too Long

Leveraged problem-solving and teamwork skills honed through diverse experiences (bartending, waiting tables, construction) to overcome a career obstacle (expired visa). Maintained passion for programming and re-entered the field with a renewed perspective and strong foundation in core programming principles. Eager to contribute to innovative software projects and create impactful solutions.

Internship, ARTCOM
artcom.edu.pl

Oct 2024

As a re-energized web developer, I thrive at the ARTCOM internship. Leveraging my diverse skillset in website development, IT maintenance, and digital asset creation (2D & 3D), I am contributing to a dynamic learning environment. I am actively seeking a full-time tech opportunity to leverage my renewed passion and extensive skills.

PORTFOLIO PROJECTS

NoLine-Deli Manager
noline-deli.vercel.app/manager

github.com/remi-k-work/noline-deli

Jun 2024

NoLine-Deli Manager is a user-friendly CMS I built for my fictional ecommerce store NoLine-Deli. This interactive platform allows anyone to experiment with managing product catalogs, categories, and images, showcasing my skills in e-commerce backend development, CMS creation, and user interface design.

NoLine-Deli
noline-deli.vercel.app

github.com/remi-k-work/noline-deli

Mar 2024

Developed NoLine-Deli, a Next.js e-commerce prototype specializing in organic European groceries. This project prioritizes a convenient, queue-free shopping experience with nationwide home delivery in the US. It caters to both European expats seeking familiar favorites and those interested in exploring high-quality European products.

Word Wave

word-wave-two.vercel.app

github.com/remi-k-work/word-wave

Feb 2024

Join our vibrant blogging community, where creativity and connection thrive. Share your stories, ideas, and passions with like–minded individuals. Our platform provides a space for you to express yourself freely and connect with others who share your interests. I built this simple social network feed app using Redux, following Mark Erikson's "Redux Essentials" tutorial from the official Redux documentation.

Home Budget

react-router-budget.vercel.app

github.com/remi-k-work/home-budget

Dec 2023

I am brushing up on my web development skills after a long hiatus. I am particularly fond of React for its modularity and encapsulation. I am also learning React Router to make React's SPAs function like traditional websites. I am following Coding in Public tutorials. Start budgeting now, especially during the holiday season!

Wordle Game

wordle-game-beta-five.vercel.app

github.com/remi-k-work/wordle-game

Jan 2024

Embark on a wordsmithing adventure with my Wordle Game clone! Each day, a new puzzle awaits, testing your vocabulary and problem–solving skills.
Utilize color–coded feedback and your linguistic prowess to decipher the secret word. Enjoy the thrill of solving each puzzle, and relish the satisfaction of mastering the English or Polish language.

Memory Game

memory-game-nine-rho-39.vercel.app

github.com/remi-k-work/memory-game

Dec 2023

Test your visual memory and see how quickly you can reveal the entire board. Choose from a variety of image collections, each unique and randomly generated from PixaBay servers.
Challenge yourself with increasing difficulty levels, track your progress, and push your limits to beat your best score. Enjoy the challenge and have fun!

My CV

my-cv-remi.vercel.app

github.com/remi-k-work/my-cv

Oct 2023

Developed a personal resume website using React. This project showcases my web development skills and provides a dynamic user experience. The source code is available on GitHub for anyone interested in exploring the implementation or learning from it.
